

FIXKER MAKE FLOOR CLEANING MORE EASIER

CUSTOMER CASES WORLD WIDE

Mini **Scrubber**

G2/G3

MAIN FUNCTIONS AND SPECIFICATIONS

- Wide application / office, office buildings, supermarkets, bar, restaurant, hotels and others areas.
- Stepless speed control brush / 5 speeds choices
- Adjustable handle / Flexible turning angle rotating handle, easy operation
- Small turning radius / flexible adjustment and easy to clean corner areas
- Easy operated dash
- Magnetic brush pad holder / easy to change in one stop
- Floating squeegee / reduce resistance to move easily (G3)
- 3 in 1 combination with washing, scrubbing and suction / fast decontamination without mark
- Squeegee can be lifted up for only scrubbing mode / Presenting without absorbing, clean the floor wet and let the soap take effect (G3)
- Safety handle sensor (G3)
- 3 levels water choices: 170/190/220mL/min (G3)

MAIN FUNCTIONS AND SPECIFICATIONS

- Suitable for aisles such as offices, office buildings, supermarkets, school,
- According to the roughness of the ground, the water volume can be automatically adjusted or Manual;
- The water flow is automatically set by the machine. The machine has an automatic detection system depending on the roughness of the floor;
- 170-degree folding handles to satisfy people of all heights;
- The turning radius can be flexibly adjusted, and the corner area can be easily cleaned:
- One-click start, The height of the brush plate can be adjusted to reduce
- ECO energy saving mode, The endurance timecan reach 5.5h.

Dash control panel Adjustable brush height

MAIN FUNCTIONS AND SPECIFICATIONS

- Work efficiency up to 3000m²/h;
- Auxiliary traction system / auxiliary power, easier to push;
- Failure reminder / automatic shutdown to avoid accidents;
- Automatic water stop / solenoid valve controls the water flow to ensure that the water will be cut off when the brush stops;
- The water flow is automatically set by the machine. The machine has an automatic detection system depending on the roughness of the floor;
- One-click start / ECO energy saving mode, The endurance time can reach 5h;
- Automatic up and down brushing;Intelligent operation, no need to replace manually.

F110

MAIN FUNCTIONS AND SPECIFICATIONS

- Efficient work / Work efficiency up to 5500m²/h;
- Convenient operation / One-click start, adapt to the general population;
- Automatic deceleration when turning / Speed limit function when turning, suitable for
- Local pressurization / According to the ground conditions, local pressurization and cleaning agent can be added;
- ECO mode / Single charge working width up to 35000m²;
- Failure reminder / Automatic shutdown to avoid accidents;
- Linkage function / Accelerator, brake, and induction seat are integrated to prevent novices from making mistakes;
- Induction seat, when the driver leaves the seat, the machine will stop moving forward
- Automatic fault detection and alarm function, equipped with high-power LED lamp for night operation as standard;
- The water flow is automatically set by the machine. The machine has an automatic detection system depending on the roughness of the floor.
